DETAILED ACTION

Election/Restrictions

1. This application contains claims 1 and 5-15 drawn to an invention nonelected without traverse in Paper No. 7. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 2, 4 and 16-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Baraldi et al. (4,060,042) in view of Giraud (3,916,806) as presented in paragraph 3 of Paper No. 20.

Response to Arguments

4. Applicant's arguments filed December 10, 2002 have been fully considered but they are not persuasive.

Applicant argues that Baraldi et al. does not teach or suggest a retaining threshold because Baraldi discloses the desire to hasten the progress of waste material through the apparatus including transporting blades.

The examiner respectfully disagrees. Applicant has defined a "retaining threshold" as a structural element resulting from a difference in diameter between large and small sections of a rotating shell. Baraldi et al. discloses such a structural element (6). Despite Baraldi's desire to hasten progress of waste and the provision of

Art Unit: 1764

transporting blades, the structural element (6) itself reads on the "retaining threshold" as defined and as claimed and continues to read on the apparatus. In addition, despite the transporting blades, the structural formation of element (6) would inherently impede in some form on the movement of the waste through the rotating cell due to it's shape and position in the cell.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
